Krusty gets the right tools for 2007

Gilles Tooling have confirmed today that they are on board in full support of Adam ‘Krusty’ Fergusson’s new team and he will ride his new 2007 Honda Fireblade fitted with the latest hardware Germany has to offer.

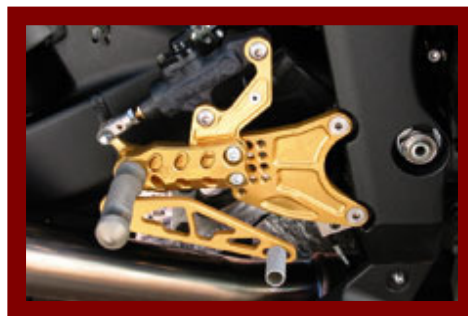

“I am delighted to be supporting Adam and his team, I have been a huge fan of his for years now and it is a dream come true for my company to be supporting him in his quest”. said Ray Northridge, Managing Director, Easy Rider Imports, Australian importers and distributors of Gilles Tooling.

DVS Honda has been hard at it making its new shocks and is extremely selective when it comes to CNC produced hardware.

“The Gilles Tooling hardware is extremely well made and it compliments our shock very nicely” said Dave Krseven, co-owner DVS Honda.

Gilles Tooling products are available from Easy Rider Imports and DVS Honda, simply log onto www.easyriderimports.com.au or go to www.dvshonda.com.au
